

I am writing because of my concern of LPFM replacing FM translators and the possibility of losing our local KLOVE station. There is no other stations in our community that play commercial free Christian music and many, many people in our community enjoy KLOVE. It would be devastating to lose our beloved station as it has become our and many others favorite Christian radio station. It provides something that is not so prevelant in radio in this day and age and this is positive, encouraging music. KLOVE also gives the opportunity for many people that don't presently know Jesus Christ or are seeking guidance the ability to phone them and speak to someone about this and/or what is troubling them or what they are needing prayer support for. I know of no other station that does this. Please consider all this when making this important decision. Thank you for your time, Al and Ginger Bradley
